

Integrated Report 2017 is printed using environmentally friendly paper, ink, and printing techniques.

Paper

This report is printed on "KDDI Environmentally Friendly Recycled Paper" made from recycled paper collected at au shops and other locations.

Ink

This report is printed using ink in which a portion of the harmful petroleum solvents normally included in ink has been replaced with soybean oil and other vegetable oils.

Printing

This report is printed using a waterless printing method that does not use developing solution or dampening solution and does not produce waste liquids.
